TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Greenville in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Greenville on Tuesday, the tenth day of March next, between the hours of ten of the clock in the forenoon and six of the clock in the afternoon, then and there to bring in your ballots for the following town officers:

Town clerk for one year; one selectman for three years; tax collector for one year; highway agent for one year; water commissioner for three years; cemetery trustee for three years; library trustee for three years; two auditors for one year; three firewards for one year.

And at eight of the clock in the afternoon of the same day at the same place to act upon the following subjects:

Article 2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

Article 3. To hear the reports of agents, auditors, committees and other officers heretofore chosen and pass any vote relating thereto.

Article 4. To see if the town will vote to authorize the selectmen and town treasurer to borrow money in anticipation of taxes, or take any action thereon.

Article 5. To see if the town will vote to raise and appropriate a sum of money to insure employees of the highway department, firemen, street lighting system and other liability insurance, or take any action thereon.

Article 6. To see if the town will vote to raise and appropriate the sum of \$153.48, the State to contribute \$613.90, these amounts to be used jointly as a relief fund and to be expended on Class V highways, so-called, or will raise and appropriate the sum of \$1,146.00, the State to appropriate \$2,292.00, the money to be used as a State construction fund, and must be spent on what has been known as Happy Hollow Road, or take any action thereon.

Article 7. To see if the town will vote to petition the State tax commission to have an audit made by the division of municipal accounting and to make an appropriation to cover the expense of such audit.

Article 8. To see if the town will vote to raise and appropriate the sum of \$75.00 to the Monadnock Region Association of Southern New Hampshire for the issuance and distribution of printed matter, newspaper and magazine advertising, calling attention to the resources and natural advantages of the town in cooperation with the other thirty-seven towns in the Monadnock Region.

Article 9. To see if the town will vote to authorize the selectmen to administer or dispose of any real estate acquired by the town through tax collector's deeds, or take any action thereon.

Article 10. To see if the town will vote to give a rebate on taxes paid on or before a certain date to be decided upon at this meeting, or take any action thereon.

Article 11. To see if the town will vote to authorize the selectmen to negotiate a new contract for street lighting, said contract to succeed the present contract which expires April 1, 1942, or take any action thereon.

Article 12. To see if the town will vote to raise and appropriate a sum of money to install and maintain flood lights at No. 1 Mill Pond to illuminate the pond for skating, or take any action thereon.

Article 13. To transact any other business that may legally come before the meeting.

Given under our hands and seal, this 23d day of February, in the year of our Lord nineteen hundred and forty-two.

J. WILLARD BUTTRICK
JOHN F. MCCUDDY
CHAS. E. SAWYER
Selectmen of Greenville.

A true copy of Warrant—Attest:

REPORT OF FIREWARDS

There were nine signal alarms during the past year and about the usual quota of still alarms for chimney fires. The greatest loss occurred August 12, when the Luther Brown buildings on Merriam Hill were burned with a loss of \$5000. The fire was caused by an over-heated truck igniting a load of hay in the barn.

An auxiliary force of 40 firemen has been signed up to assist in any emergency during the war. We again urge all citizens to know the firemen in their respective localities, as each one has an extinguisher for use in the early stages of a fire.

We recommend an increase in the fire protection appropriation in order to purchase certain necessary equipment.

Respectfully submitted,

AUDITORS' REPORT

We have examined the accounts of the following town officers: Selectmen, Town Treasurer, Tax Collector, Town Clerk, Water Commissioners, Fire Wards, Cemetery Trustees, Library Trustees, Town Hall Rent Book and Municipal Court for the fiscal year ending January 31, 1942, and find them correctly cast and properly vouched.

We find that the Road Agent's bills rendered to the Selectmen correspond with the orders issued to him.

As required by the State Tax Commission, we examined the list of unpaid taxes and found this list correct.

A summary of Tax Sales Accounts was rendered to the State Tax Commission.

REPORT OF SCHOOL BOARD

To the Citizens of Greenville:

We believe the citizens are interested to know how the transportation question which was discussed at the last meeting of the School District has worked out. We have arranged for transportation through June, 1942, of all children, both High School and elementary, at a cost approximating \$1,500. If this arrangement had not been put into effect, the District would have been required to pay \$900 or more, for transportation of elementary pupils *only*, since it has been necessary to provide transportation in both East and South districts, no bus having been required in the East district in the last four years. This item of \$900 is included in the \$1,500 mentioned above which leaves a net expense of approximately \$600 for High School transportation another year. Mr. Leon Russell is transporting all elementary pupils and all Academy pupils for \$1,200. Six pupils are continuing at Milford at a cost to the District of \$216, and \$72 was allowed for transportation of two pupils to Townsend and \$30 for one pupil at Wilton.

The number attending High School is gradually increasing year by year which fact must be taken into consideration in making up the budget expense for tuition. High School education is one of the rights of children of the United States of America and they should be encouraged to take advantage of it and tax payers should regard this education as a way of making better citizens.

The superintendent's report seems to cover other problems without further comment from the School Board.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Greenville:

I respectfully submit my nineteenth annual report as Superintendent of Schools:

EDUCATION AND THE SECOND WORLD WAR

Our nation, together with other freedom-loving peoples of the world, is at war with a group of nations whose leaders would impose upon the whole world a way of life that is utterly opposed to our way of life. Our one immediate aim is to win this struggle, and all our material resources and energies must be marshalled for the accomplishment of this purpose. I am thinking not simply of the military victory which is of course the immediate objective, but also of the "winning of the peace"; for unless the world emerges from this struggle with a plan for improved international relationships as a basis for better living and understanding among all of its people, our efforts and sacrifices will have been in vain.

The responsibilities resting upon the public schools have increased throughout the years and new problems of the future will still further increase those responsibilities. The dominant role in promoting a general understanding and appreciation of the ideals of the American way of life among the people always has been and must always be that of the school. In so far as the schools work out a sound educational philosophy and apply it wisely in a constructive educational program the success of democracy is assured. Blame for the failures and weaknesses in our American system may rest in part upon other shoulders, but it must always be attributed primarily to the failure of education to properly plant the seed and nurture the growth of the ideals of democracy in the youth of the nation.

While we must "for the duration" bend all efforts to the winning of the war, we must not fail to carry on the processes of education with undiminished vigor and effectiveness. We must not cease to study our objectives and procedures to the end that they may be continually improved to meet the constantly changing needs of the times. We must not forget that education is concerned with more than the accumulation of knowledge, the development of skills, and improvement of understanding; we must

remember constantly that the emotional element of human nature largely determines what use is made of this knowledge, understanding and skill; that it is the ideals, appreciations and interests that are awakened as well as the knowledge, understanding and skills that are developed through the learning processes, which brings about the desirable resultant intelligent participation in life activities.

INCREASING COST

If education is as important a fundamental in a democracy as we have considered it to be in the foregoing discussion, we cannot fail to recognize the necessity for giving it support second to nothing else unless it be for the time being to the necessity of winning the war. We are all experiencing the effects of the war economy in increasing costs, and our first instinctive thought is the necessity for economy in our personal and governmental expenditures. In this connection I should like to quote part of a statement prepared by the Policy Committee of the New England Association of School Superintendents:—"We believe this to be a time when wise expenditures of money for public education should be consistently upheld by the tax payers and that all selfish attempts to reduce such appropriations in the interests of so-called "Economy" should be strongly opposed. The rising cost of living and the reduction in buying power make higher salaries and higher general costs inevitable. Higher school appropriations will be required. Committees that fail to provide adequately for conditions ahead are likely to see the schools and the product of the schools severely handicapped. No question exists as to the continuing supply of material resources for our Arsenal of Democracy. There likewise should be no question about adequate support for one of its outstanding spiritual resources, namely The Public School System of America."

The National Commission for the Defense of Democracies Through Education calls attention to the effect of inflated living costs during the first World War, which compelled low-salaried teachers to accept better wages in business and industries and necessitated the filling of their places in the school rooms by unqualified people, and suggests that "part of the physical and educational unfitness of youth rejected for military service today can be charged to the inadequacies forced upon the schools during and following the World War." The Commission points out that

we are already entering the first cycle of those events again. Teachers in large numbers are leaving for better paying positions in defense industries and government agencies. This situation has already become serious in some of the South and Central states where teachers' salaries are below the average. If this flow of teachers to better paid occupations is not checked, it will not be long before sections like our own, where somewhat higher salaries are paid, will be threatened with the necessity of replacing teachers with persons less adequately trained.

The Commission points out that in two years (to October, 1941) the cost of living has gone up 11% and food prices have risen 19%, and estimates that the cost of living will increase another 15% in 1942, even if a start is made toward price control. They also state, "during these two years the twelve million factory workers have received an increase of 30% in average weekly earnings, cash income from farm products has gone up 45%, teachers' salaries for the most part have remained static." To quote further, "the times permit a more generous financial support of schools. Incomes in general are rising faster than the cost of living, property is worth more, tax delinquency is less."

TESTS

As in the past, the Stanford Achievement Tests and the Metropolitan Achievement Tests have been given in October to all pupils in Grades 3 to 8; in January to Grade 2; and in May to Grade 1, and to those pupils who had low scores in the October test or were absent or entered school after the October testing. All of these tests are given, scored and tabulated by the teachers. The tabulated results are assembled in my office and such comparisons are made with the test standards and with the results of previous tests as are found useful both to me in supervising the schools as a whole and to the teachers in gauging their instruction in the various subjects, and in locating weaknesses that need to be corrected.

The authors and publishers of the Stanford Achievement Test have made a thorough going revision in these tests and the new forms were used for the first time in my district last October. The changes made in the tests and the resulting changes appearing in the standards for each grade were such that a comparison of results with those of previous years is somewhat misleading. The October 1941 tests show, however, that the pupils in my

district in Grade 8 were about one month below the standard, in Grade 7 one month above the standard, in Grade 6 three months above standard, in Grade 5 one month above standard, and in Grade 4 one month above standard.

SCHOOL ORGANIZATION

With 21 pupils in the first four grades in the primary room and 33 in the four upper grades in the grammar room it became apparent earlier in the fall that the load on Mrs. LaPierre was greater than she could carry, and do justice to each of the four grades and especially to the many pupils in those grades needing special individual attention. For a short time an effort was made to correct the situation by sending the fifth grade into Mrs. Frost's room for part of their work, but this was not an adequate correction. It was then decided to divide the grammar room and Miss Helen Capsalis was engaged to take grades 5 and 6 leaving Mrs. LaPierre free to give full time to grades 7 and 8.

Present indications are that the same situation is likely to be duplicated next fall.

BUDGET

The first item in the school board's estimate of money required for the school year 1942-1943 is teachers' salaries for \$3,200, is the estimate of money needed.

The arrangement made by special vote of the school meeting last March providing transportation for pupils attending high schools if continued next year, will require probably at least \$1,600. If the voters at the school meeting feel that high school transportation cannot be continued, there would still remain the required transportation of elementary pupils living more than two miles from the school which would cost at least \$900. These estimates are based upon present cost with a small increase; the uncertainties of the present situation with regard to automobiles, tires, gas, etc., make it impossible to give these estimates with complete assurance.

In the group of items under "other statutory requirements" it is necessary to increase the figure for expense of administration by \$20 over last year's estimate in order to cover Greenville's share of the additional expense of the Superintendent's office which has been moved from the Wilton school building where rent and telephone service were provided without charge.

The number of Greenville pupils attending high school is increasing and the estimate of the amount required for high school tuition is \$3,800 as compared with last year's estimate of \$3,425.

The only income to the district other than the tax assessment is for the tuition of one New Ipswich pupil and the dog tax. Last year there was a substantial cash balance at the close of the fiscal year and there would have been a similar balance at the close of the current year if it had not been taken up in the salary of the extra teacher. There will be very little if any next June.

The above statements explain why the assessment required to balance the school board's budget this year is more than \$2,000 greater than last year's assessment.

Respectfully submitted,

VERNON S. AMES,

Superintendent.
